Took complaint on the ditch digging and the culvert replacement on Marek St. Citizen stated the new culverts put in place are not flush with the top of the ground. I drove to Marek St and observed the contractors to be leveling the culverts to make them flush.

June 2nd

Received complaint from citizen in reference to tree limbs blocking the roadway at North 2nd and Guyler. I have forwarded this concern to Public Works in the event the tree limbs need to be cut and cleared from the roadway.

Received another complaint from the same citizen about horses being kept in a small backyard in the 200 block of North 2nd. I went to the residence and spoke to the tenant who stated the horses would be moved with-in the hour.

June 4th

Received a call from a citizen complaining about the topping that was placed on her new culvert. She wanted blacktop placed on the culvert like her old culvert had. I explained the contractors doing the work were not through and most likely will be back to complete the job. I did notify Royce so that he was aware of the issue.

On this same date I received a call demanding the culvert be replaced that goes across Austin Street into the Martisek trailer park. I did notify Royce about this and he was going to check his map to determine if this particular culvert was due to be replaced. The caller also stated this was an agreement between her and the city years ago, to maintain the road leading into the trailer park, including the culvert.

June 9th

Spoke with citizen that was concerned if the City Ordinance had changed in reference to feeding cats at the Wallis Bank.

City of Wallis-TDA TxCDBG Water Well 1 Grant with Extra Work for Electrical & Controls

Good Morning Sheila, hope all is well. Updated for council, I will not be in attendance.

Existing Water Well 1 Rehab Construction Contract with J&S Water Wells (Phase 1)

- Verified that J&S has received payment for Pay Request 1;
- Got with J&S and then sent Vicki with Grantworks and TDA Project Specialist an e-mail relating to Change Order 1 to add VFD/electrical and rectify final quantities; and
- Only item left for construction is setting the new 40 Hp Motor by J&S and in the near future by Mercer Controls to install the New VFD & associated electrical.

Future Electrical/Controls Work at Water Well 1 Plant and Water Plant 2 (Phase 2)

- Met with City Staff and BEFCO Electrical Engineer to go over proposed scope of work at both sites;
- BEFCO entered subconsultant contract with Guzman Engineering for Electrical Engineering Services for this extra work. Please note that Guzman Engineering will be doing the design and BEFCO will still put together the bid package & provide construction management;
- Obtained electrical diagram for Water Well 1 New VFD in Phase 1 from Mercer Controls and e-mailed to electrical engineer; and
- Sent e-mail to Vicki asking for an update on environmental for the extra work.

Apologize, but can't give an overall update on timeframe as Mercer hasn't communicated back when they intend to come to Wallis and install VFD for Water Well 1. Wishing a good Friday and weekend to y'all. Take care, Bradley
